INFORMATION FOR GRADUATION

For students of General Medicine, Dentistry, Physiotherapy and Optometry in the academic year 2016/2017

Dear Students,

Below please find instructions from the International Study Affairs of the Masaryk University, Faculty of Medicine concerning the graduation.

Graduation in English language will be held in the Assembly Hall of Faculty of Law:

• on Tuesday June 27th 2017 at 13.00 for General Medicine and Dentistry
• on Tuesday June 27th 2017 at 14.20 for General Medicine, Optometry and Physiotherapy

For graduation please appear not later than an hour before its beginning in the entrance hall of the MU Faculty of Law, 70, Veveří Street, Brno (in the ground floor at the right side near the cloakroom). You will receive information about the graduation ceremony there, so please be there one hour prior the beginning.

If you find out that you cannot participate, please let me know immediately because I need to prepare the final list of attending students in advance!

You can choose who will be your promotor for graduation, it is the person who will hand the diploma to you during the ceremony. It can be any professor or docent from medical faculty.

At the same time we would like to ask you to inform your guests that they should appear in time for the ceremony, should keep their mobile telephones switched off, avoid applauding during the ceremony, and thus contribute to a dignified progress of the solemn act. Please inform them also that they should not telephone to the International Study Affairs to find out about the date and time of graduation, because at that time there will be the admission procedure in progress. Thank you very much for respecting this. You can invite as many guests as you wish.

The International Study Affairs will arrange a video recording and a photographer. If you wish to buy a set of photos or a video from the ceremony, please bring cash with you approx.. 500 – 600 CZK per each item. Also there will be a flower stand in the entrance hall.

Brno, May 9, 2017
