

HISTOLOGICKÉ PREPARÁTY
HISTOLOGICAL SLIDES

VŠEOBECNÉ LÉKAŘSTVÍ
GENERAL MEDICINE

1. Labium oris	36. Tuba uterina – ampulla
2. Apex linguae	37. Tuba uterina – isthmus
3. Papilla vallata	38. Uterus – phasis proliferativa
4. Tonsilla lingualis	39. Uterus – phasis secretoria
5. Palatum molle	40. Vagina
6. Tonsilla palatina	41. Labium minus
7. Dens (zub, tooth)	42. Hypophysis cerebri
8. Glandula parotis	43. Corpus pineale (Epiphysis)
9. Glandula submandibularis	44. Glandula thyroidea
10. Glandula sublingualis	45. Glandula parathyroidea
11. Oesophagus	46. Corpus suprarenale
12. Cardia	47. Thymus
13. Fundus ventriculi	48. Arteria et vena
14. Pylorus	49. Aorta
15. Duodenum	50. Vena cava
16. Intestinum tenue	51. Myocardium
17. Intestinum crassum	52. Lymphonodus
18. Appendix vermiformis	53. Lien
19. Hepar	54. Cutis – phalanx distalis digiti manus
20. Vesica fellea	55. Cutis – axilla
21. Pancreas	56. Cutis capillata (s vlasy, with hair)
22. Epiglottis	57. Unguis (nehet, nail)
23. Larynx	58. Mamma non lactans
24. Trachea	59. Mamma lactans
25. Pulmo	60. Cortex cerebri
26. Ren	61. Cerebellum
27. Ureter	62. Medulla spinalis
28. Vesica urinaria	63. Ganglion
29. Testis	64. Nervus
30. Epididymis	65. Bulbus oculi – segmentum anterius
31. Funiculus spermaticus	66. Bulbus oculi – segmentum posterius
32. Vesicula seminalis	67. Palpebra
33. Prostata	68. Auricula
34. Penis	69. Funiculus umbilicalis
35. Ovarium, corpus luteum	70. Placenta
