Education

Design Thinking: Creating Solutions in Life-Science

Prof. Dr. Craig Garner

5th of March 2025 | 4 – 5 pm (CET)
Online Webinar

Craig is a seasoned scientist who has worked in the US, Switzerland and Germany. Besides his accomplishments in basic research in the field of neurobiology he has co-founded three biotech companies. Craig will share his experience implementing design thinking to foster creativity, collaboration, and human-centered solutions to tackle complex challenges in areas like healthcare, biotechnology, and research.

Interested in learning how design based-approaches can help you reach patients faster?

Join us for an engaging webinar where we explore how design thinking can revolutionize problem-solving in the life sciences. Whether you're working to improve patient outcomes, or develop cutting-edge technologies, design thinking offers actionable strategies to unlock new perspectives and drive impactful change.

Online via Zoom | Please register [here!](#)*

Registration to the webinar is required in advance in order to receive Zoom meeting link.

The event is hosted by SPARK FLI, Jena, Germany

*By participating in this webinar, you consent to the sharing of your email address with our SPARK-Partners for the sole purpose of providing information and resources related to their certification programs. Your information will not be used for any other purpose without your explicit consent.

SPARK is an initiative created at Stanford University to overcome challenges associated with translation of academic discoveries.
